Mrs. Bennett-

Shows Sneak peek on new website. Created by Mrs. Eckman and tech assist. Alvin and feedback from Title1 PAC. Big improvement. Now ready to be released. Title 1 budget to be able to increase communication. Made certain where our CEP goals are. Website provides all this.

CEP update- connects to mid-year data review from IReady and Acadiance. Based on IReady data and deep dive into student work and data.

Iready data- from Sept to mid-year ELA and Math show increase. From K to 5 now we are at 55% mark. We grew 17% on or above level. Chart able to see students who perform 2 or more years below level. Decreases for students performing below level. Disability 5% growth. 8% decrease in below. EL grows 13% above.

Iready Math- increased 19% above and 9% below.

Disabilities increase in 14% and ELLs. Disabilities Below 19% and 12% ELA.

k-5 increased but varied in grade. From 12% to 25% increase. Testing math on content in that year. If it hasn't been taught yet students won't get it. More content gets covered the numbers grow.

Acadience data- students in k -2 tested on diff things each time. Increase to 60% is at or above level. Good growth across the board. Kindergarten decrease in 2<sup>nd</sup> window. 1<sup>st</sup> and 2<sup>nd</sup> 65% and 75% increase. Whole school looked at and can look at grade by grade.

Student with disabilities and ELLs - started the year off at much lower level.  
When data is looked at we look at progress. Exceeding expectation or falling below.

Possibly taking a diff approach in EL and ICT classes. Pilot first, in May-June. 12:1:1 class. Heggerty, Functions and Geodes- K to 2. Looking at current iready. How to link foundations. 80% decodable. Students can transfer what they learned from reading. Piloting in 2 classes. Happy with k to 2 in Geodes. Observation in classroom and data. Big growth in IReady 23% and above. Try in 12:1:1 classes. What needs to be tweaked. Growth in K to 2 and not 3 to 5. Bigger approach for next year. Continue to work with teachers.
